Fireflies (Evan Wilcox, Alan Garcia, Joni McCawley)

Goal: program the strength of Jane's immune system

- If she has a healthy diet, then we decrease her chances of getting sick
- We'll increase her chances of getting sick with a poor diet

Tasks:

- Depending on diet, we'll add points to Jane to program the strength of her immune system
- Add more factors like sleep, age, exercise

What is done:

- Program shows interactions between infected persons interacting with 10 other persons
