

# Techniator

**Team Goal:** Create a tool/app that makes fake news detection easier

## Current Status:

- *Shortlisted a few datasets that we want to do*

## Tasks Ahead:

- *Data cleaning - [Sarah]*
- *EDA - [Kelvin]*
- *Feature Engineering [Caesar]*
- *ML Model Training [Kelvin]*
- *App Development & Deployment [Caesar]*

## Possible Concerns/Issues:

- Model fine tuning
- Dataset size and representativeness/limitations
- Dataset availability
