Day 3 Alitancon Team Progress Chedd-In

Updated Project Plan

Creating an automation process for scoring the papers

Creating a template for the poster

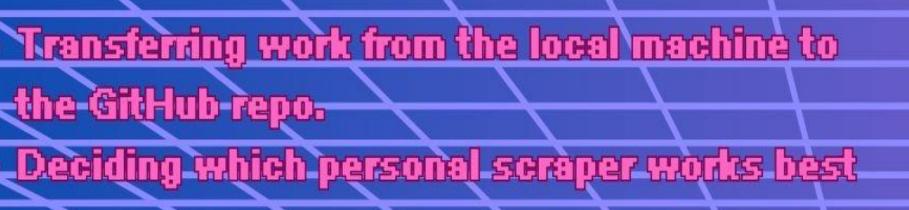

Cithub will be the main platform for our website/project

Progress Check-In

Technology/Resources in Use

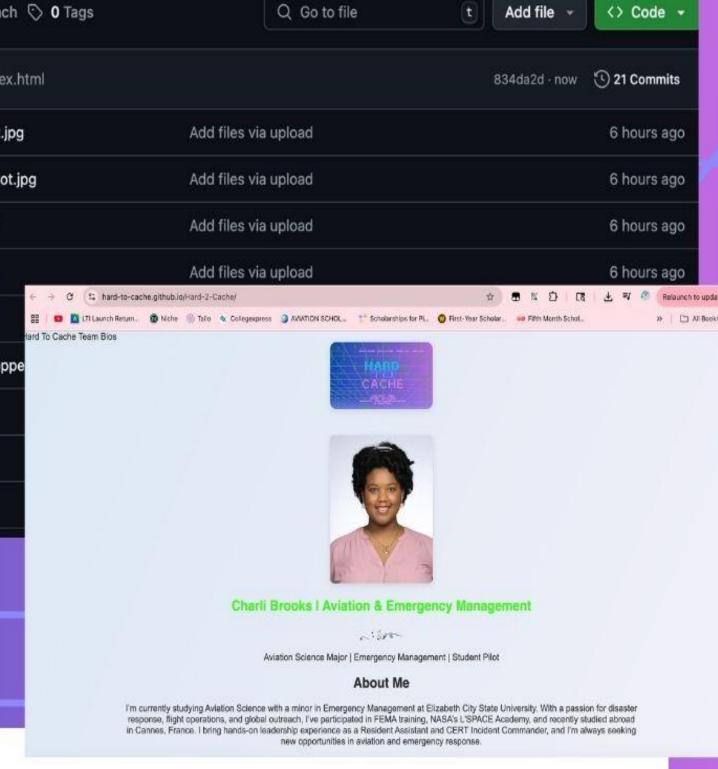

- Compiled data from papers into readable content Created a path in Collab to scrape data
- Created HTML website on terminal with first stages o data scrape
- scoring metics and summarizing each article through Google Sheets

Day 3 Team Progress Check-In

Updated Project Plan

- Priority shift to working on a
- mangong guigenez-devy
- Reorganized workflow to work
- in parallel
- Re-access the asobility of the found files
- Reorgenizing so thet members who are on travel duties are encene of the first priority to ensure we can continue the work

Day 3 Team Progress Cheek-In

Technology/Resources in Use

- Performed several data scrapes in a virtualenv within Macbook's terminal with a running HTML page.
- Set up a Github live website with Team Bios and Headshots
- Made moderate progress on the scorecard with Google Sheets

Installed PyMUPDF to import files to the terminal easily

Bottlenecks / Issues / Concerns

 Maintaining the HTML websites and the continuous use of all files

- FileNotFound errors in the terminal
- Linking the GitHub HTML and terminal virtualemy
- Trying to make each group member an admin in the GitHub repository.

Hard To Cache Team Bios

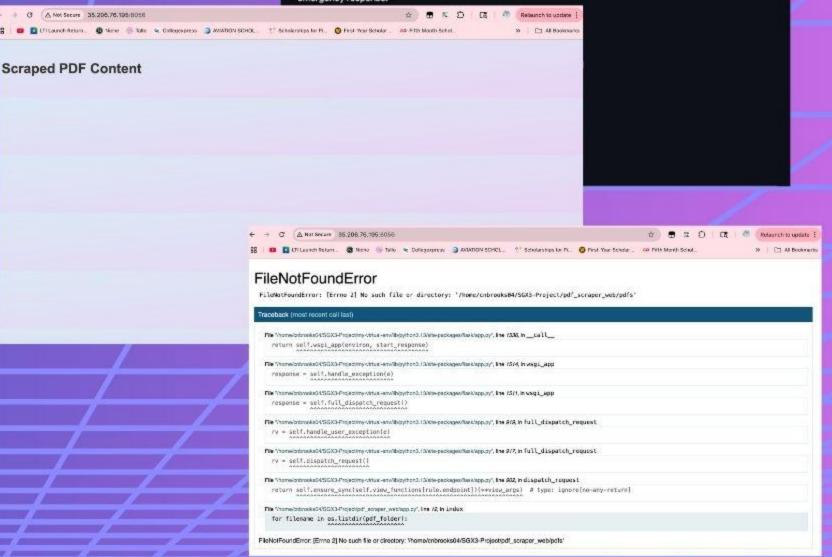

Charli Brooks | Aviation & Emergency Management

-ist

Aviation Science Major | Emergency Management | Student Pilot

About Me

I'm currently studying Aviation Science with a minor in Emergency Management at Elizabeth City State University With a passion for disaster response, flight operations, and global outreach, I've participated in FEMA training NASA's L'SPACE Academy, and recently studied abroad in Cannes, France. I bring hands-on leadership experience as a Resident Assistant and CERT Incident Commander, and I'm always seeking new opportunities in aviation and

Team "Hard To Cache"

Silas Erving: Research & Scorecard Lead

Chante: Code & Reproducibility Engineer

Charli: Web & Poster Designer

Seth: Presentation & Project Coordinator

Made with **GAMMA**

Project Execution Plan

Evaluate reproducibility of 2023 ISCE + 2024 Supercomputing papers by June 27, 2025.

ing Scoring Polish PRESENT

Made with GAMMA

🛞 Charli – Web & Poster Designer

Role Focus. Craft the visual identity of our project power web and print platforms.

Core Responsibilities

Design and launch a project website with embedded scorecard visuals Create a print-ready poster with aligned color scheme, font hierarchy, and

content structure

Collect and format team bios, photos, and profile links for inclusion

visualize and embed the Scorecard Prototype (see below) in both the website

and poster

Maintain version control and visual consistency across deliverables

Personal Timeline

- DateTask
- June 23
- Attend kickoff, receive scorecard format & branding notes
 - June 24
- Draft website layout, collect team photos and profile links June 25
- Design poster mockup, start embedding/early scores and graphics
 - June 26
- er. QA design, ens 116.116.
 - aments in final presentation and O.S.

ire alignment with team plan

Tools and Resources

PurposeToolisi Website: GitHub Pages, Terminal (Pythona), HTML/288, Google Sites Poster Design: Canva or Google Slides (PDF expond) uals & Embeds: Google Sheets (seorecard

and e Forms or Georgie Doos

Day 2 Team Progress Check-In

Progress Priorities	
• Set up program on	end web
Github/Collab for automation Further Develop GitHub HTML 	• Rec in p
website Started to score metrics on our	
Scorecard sheet (finished 2 artifoles)	
	=1/7

pdeted Project Plen only shift to working on a mergorq guiqerez-d show of workhow beside erellel

Day 2 Team Progress Check-In

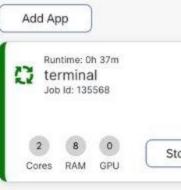

Technology/Resources in Use

- Compiled data from papers into readable content.
- Created a path in Collab to scrape data.
- Created HTML website on terminal with first stages of data scrape
- socring metics and summarizing each article through Google Sheets

Bottlenecks / Issues / Concerns

- Crashing my poor Macbook
- Apps stalling on Eureka/unable to handle data load
- Losing several SSH keys
- struggling to view some articles (limited access)

Test for Data

```
import pdfplumber
import pandas as pd
```

```
# Automatically use the uploaded file
pdf_path = list(uploaded.keys())[0]
with pdfplumber.open(pdf_path) as pdf:
    for i, page in enumerate(pdf.pages):
       print(f"\n --- Page {i+1} Text ---")
        print(page.extract_text())
        # Try extracting tables
        tables = page.extract_tables()
        for t_index, table in enumerate(tables):
```

```
print(f"\n --- Page {i+1} Table {t_index+1} ---")
df = pd.DataFrame(table[1:], columns=table[0])
print(df)
```
